

AUG 14 2006

Appl. No. 09/944,891  
Amdt. Dated August 14, 2006  
Reply to Office Action of May 15, 2006

Docket No. 1A00011  
Customer No. 22917

REMARKS/ARGUMENTS

Claims 1-22 were rejected under 35 U.S.C. 103(a) as being unpatentable over Behfar, et al. (WO 00/77620 A2) in view of Oliveira, et al. (US 006579208 B2), further in view of Lec, et al. (US 006609127 B1).

While Applicants maintain their traverse of the §103(a) rejections, Applicants have cancelled claims 1-22, and herein submit a new set of claims with a Request for Continued Examination. Support for new claims 23-45 is found, inter alia, on pages 5-7, 10-13 of the specification. No new matter has been added with the addition of claim 23-45. Because the prior art, and in particular, Behfar, Oliviera, and Lee, do not disclose, teach or suggest each element of new claims 23-45, Applicants submit that these new claims are patentable.

The Applicants believe that the subject application, as amended, is in condition for allowance. Applicants request prompt passage to allowance.

Please charge any fees that may be due to Deposit Account 50-2117, Motorola, Inc.

Respectfully submitted,
